Webinar on INDIAN CONSTITUTION LAW by Professor: Shivlinge Gowda M.ARCH(LANDSCAPE ARCHITECTURE) , AIIA(B.ARCH), BE(CIVIL), LLB, DCM(DIPLOMA IN CONTRACTS MANAGEMENT) of SOA, Co-ordinator: Ar.Vidya Ramesh Achar

 **3. The History of Constitution of India.**

VI. **Government of India Act (1935)**- This introduced "provincial autonomy": responsible government at the provinces with elected Indians in charge of the administration, and responsible to the elected legislatures. A federal government was proposed, though it did not come into effect. At the centre, "diarchy" was introduced.

VII. **Indian Independence Act (1947)**- The British gave up control of the Government of India into two dominions - India and Pakistan. For the time being till the constitution was made, both of them would be governed in accordance with the Government of India act 1935.

The Partition of British India was based on the prevailing religions, broadly as shown in this map of 1930.

Flour of the grain at railway station in Punjab

20

 **1. What is Constitution Anyway?**

Almost everything we do is governed by some **set of rules**. There are rules for games (like-soccer), for social clubs and for adults in the workplace. There are also rules imposed by morality and custom that **play an important role in telling us what we should and should not do**.

For example- In the game of soccer, a **referee** has "full authority to enforce the **Rules or Law of the Game**" on the Players", when a player do something against the Rules referee takes action like send-off a player, as shown in images below.

should

Should not

Red-card

SCHOOL OF ARCHITECTURE, DSATM 4

 **3. The History of Constitution of India.**

3) **East India Company (1765AD-1858AD)**- During this period, the company established a **unified control over the whole of India** from a single center in Calcutta. Different Acts and Laws were forced by company during this period just so company could remain in power and authority. But the company came under increasing control by parliament of Britain and its rule ended with the Revolt of 1857.

Different battles all over the India

6. What Is The constitution of India?

Ordinary rights may be changed by the legislature by ordinary process of law making, but a fundamental right may only be changed by amending the Constitution itself. Besides this, no organ of the government can act in a manner that violates them.

Any infringement of fundamental rights can be challenged by any citizen of India in the court of law. The Constitution of India also prescribes some fundamental duties on every citizen in India.

SCHOOL OF ARCHITECTURE, DSATM 40

8. Conclusion

A Constitution symbolizes independence of a country. Framework and structure for the governance of a free country are provided in the Constitution. The Constituent Assembly prepared the draft of the Constitution by keeping the 'Objectives Resolution' as the backdrop which reflected the aspirations of the people of India.

The framing of the Constitution was completed on November 26, 1949 when the Constituent Assembly formally adopted the new Constitution. The Constitution came into force with effect from January 26, 1950.

The Constitution begins with a Preamble which declares India to be a Sovereign, Socialist, Secular, Democratic, Republic. The Preamble also mentions the goals of securing justice, liberty and equality for all its citizens and promotion of national unity and integrity on the basis of fraternity among the people assuring dignity of the individual.
