IPR Cell – DSATM

Vision: To become a world class centre for the creation of human resources in the field of Intellectual Property Rights (IPR) and to establish systems for seamless integration of IPR in the Knowledge Value Chain in an evolving organizational framework.

Objectives:

- The primary objective is to give the students an opportunity to apply the concepts they learned to their own research problems and plan their respective research strategies to avoid “rediscovering the wheel” and at the same time initiate the protection of the Intellectual Property created during their research to aid in speedy transfer to application centers / industries for commercialization.
- The objective is the interdisciplinary introductory workshops at the UG and PG levels is to create IPR literates by exposing students to operational concepts in IPR.
- The objective of the IPR cell for the Ph.D. students drawn from diverse departments of the organization is to make them appreciate the nuances of IPR and how it is relevant to them in their research process.
- A common set of objectives of IPR Cell is to make the students aware of the relevant community-level intellectual property such as Geographical Indications that can be used for socio-economic development in communities.

About the Cell:

DSATM Intellectual Property Rights Cell was created in 2019 with a vision to develop human resource in the management of Intellectual Property Rights as an integral part of the innovation process and the innovation value chain in the university. Several patent and copyright applications have been filed based on the innovations done in DSATM. The Cell has been involved in several IPR Awareness and implementation programmers in the organization Campus. The Cell is gradually building IPR consciousness in the Region, not only within the institutions but also among the different strata in the society.
